Socially Responsible Investment – investment fad or here to stay?

Is there an investment case? Why is it growing?
What are the performance implications?

Trustees of superannuation funds & philanthropic trusts - how can you reconcile your fiduciary & financial obligations with social & environmental objectives?

Financial Planners - learn how to capture your clients' non-financial objectives in a prudent investment portfolio that will achieve competitive returns.

CFOs, Company Directors, Fund Managers, Analysts and Brokers - will social and environmental behaviour become increasingly important determinants of companies' financial prospects? If so, how?

Note this date in your diary NOW

Auckland: Tuesday May 21

The United Nations Environment Programme Finance Initiatives conference is supported by:

THE ASSOCIATION OF SUPERANNUATION FUNDS OF NEW ZEALAND INC
